SUMMARY

Cloud & DevOps Enthusiast with hands-on experience in AWS infrastructure, containerization, and automation. Skilled in provisioning scalable cloud environments, automating deployments, and building full-stack applications. Experienced with Python, Bash scripting, and Docker-based workflows to improve operational efficiency and reduce manual overhead.

EDUCATION

B.Tech in Computer Science and Engineering

2021 – 2025

Birla Institute of Applied Sciences, Uttarakhand Technical University | CGPA: 7.2

EXPERIENCE

AWS Cloud Freelancer (EC2 & S3 Infrastructure)

July 2025 – Aug 2025

Freelancer | Remote

- Provisioned and configured AWS EC2 instances handling AMI selection, security group rules, and SSH access management.
- Set up and managed AWS S3 buckets with IAM policies, versioning, and lifecycle rules for cost-optimized object storage.
- Automated routine cloud tasks using Bash shell scripts, reducing manual intervention in instance start/stop and backup operations.

PROJECTS

Automated CI/CD Pipeline for a Microservice

Jun 2026

Docker, GitHub Actions, Python, Flask, Docker Hub, AWS EC2

- Built a Python/Flask-based photo filter microservice and containerized it with Docker for consistent cross-environment deployment.
- Configured a GitHub Actions CI/CD pipeline to automatically run tests, build the Docker image, and push to Docker Hub on every commit.
- Deployed the containerized service on AWS EC2, demonstrating an end-to-end automated delivery workflow from code commit to production.

Eco-Archive

May 2026

Express.js, Node.js, MySQL, HTML, CSS

- Built a full-stack sustainable digital library using Node.js, Express.js, EJS templating, and MySQL with session-based authentication via bcryptjs.
- Designed a custom CSS theming system (under 5KB, zero frameworks) with persistent dark/light mode and Low-Data toggle to minimize bandwidth.

Psychology Report Generator

Jan 2025 – May 2025

Python, RPPG, LLM, Flask, Docker, REST APIs

- Containerized AI application processing 19,000+ video samples with 91% diagnostic accuracy.
- Streamlined deployment workflows reducing deployment time by 60%; deployed scalable AWS infrastructure (EC2, S3, Lambda) for model serving.

TECHNICAL SKILLS

Cloud: AWS – EC2, S3, RDS, Lambda, CloudWatch, IAM, VPC

Containers: Docker, Docker Compose, Container Registry

Languages: Python, Bash, Shell Scripting

Databases: MySQL, PostgreSQL, AWS RDS

OS: Linux (Ubuntu), Windows Server

Monitoring: AWS CloudWatch

Tools: Git, GitHub, GitLab, Jira, Slack, Microsoft Teams, Postman, Jupyter, Visual Studio, IntelliJ IDEA

CERTIFICATIONS

- AWS Educate – Cloud 101, Storage, Security, Serverless, CloudOps, Networking, Databases, Compute
- NPTEL – Cloud Computing (IIT) | NPTEL – Introduction to Database Systems (IIT)
- Python Programming Bootcamp – Udemy (Advanced Python & Automation Scripting)
- Frontend Development – Udemy (HTML5, CSS3, Responsive Design)

POSITIONS OF RESPONSIBILITY

• Vice Secretary, Sports Club

2024

• Secretary, Anti-Ragging Committee

2024
